

Energy Management Equipment

ULTRA Energy Management Equipment

Current Optimization System

ULTRA is the World's first Electrical Current Optimization without voltage reduction.

Easy Installation

ULTRA's compact size and simple design allow it to be installed parallel to your electrical system in under 1 hour.

Eco Friendly

ULTRA helps to lower CO2 emissions by lowering energy consumption.

Low-Maintenance

ULTRA's design requires little to no maintenance.

Excellent Electricity Savings

ULTRA guarantees at least 17% energy savings

Superior Safety

ULTRA's safety has been verified by CE, CMA, MET and more.

Revolutionary Technology

ULTRA's patented technology increases electrical efficiency while decreasing overall energy consumption.

Rapid ROI

Quick return of investment (average 15-24months).
